31. (Confidential - MMP) LIAISON Called Ralph McMurphy, on the Senate Foreign Relations Committee staff, to get some more detail on the Committee's interest in the hearing that they have requested for 8 June on Terrorism. Ralph McMurphy apologized for the tardy delivery of the letter (dated 25 May 1978) from the Committee and told me that the Committee was interested in Terrorism, how effective is the unilateral approach against stations which support terrorism, how good is our information on terrorism generally and states which support terrorism. Lastly, is our information good enough to enable fulfillment of the proposed bill's requirement to draw up every six months new lists of nations which support terrorism. I told Mr. McMurphy that I would attempt to get a witness list and copies of the opening statements to him by 8 June.

[redacted] both of ORPA/NFAC, [redacted] NIO/NFAC, Bernard McMahon, EA/DCI, Lyle L. Miller, Acting Legislative Counsel, and myself. The DCI briefed the Committee in considerable depth on the nature of the Intelligence Community's information on Cuban involvement in the invasion into Zaire. The only outstanding question was the degree to which the Agency would provide some of the raw documentation which had been used to arrive at the appropriate appraisal of Cuban involvement. It is my understanding that these documents have been provided.
